

Ten Ways to Successfully Steer Your Business and Scale with Bill.com

1. Focus on strategic, forward-looking initiatives

Eliminate time spent chasing down approvals and looking for documents. Bill.com automates approval workflows and stores all documents in one location.

2. Grow without Hiring

Get more done without extra staff with our automated financial back office.

3. Keep Your Growing Supplier Network Happy

Our vendor portal provides secure, fast electronic payments that are easy to track.

4. Pay Your Suppliers the Way They Want

Choose between ACH, virtual card, and international wire transfer.

5. Greater Security and Financial Control

Secure your AP and AR data down to granular permissions settings by assigning our custom or pre-built user roles.

6. Automated Reconciliation

Save hours of work every month when your payments are automatically reconciled with your accounting software and bank.

7. International Payments Made Easy

Pay in local currencies with no wire transfer fee and manage international vendors as easily as the ones at home, across 42 countries and 22 currencies.

8. Automated Receivables

Get paid faster and less expensively with automated accounts receivables.

9. More Ways to Get Paid

Choose between: ACH, international wire transfer, credit card, and PayPal.

10. Get Strategic About Working Capital

Time your payments for early-pay discounts and avoid late-pay penalties.
